P. APPENDIX

Secretary to Government, Legal Department.

The following Report of the Select Committee on the Bill further to amend the Indian Income-tax Act, 1922, was presented to the Legislature Assembly on the 24th November 1941:—

Mr. The undersigned, members of the Select Committee to which the Bill has been referred, the Indian Income-tax Act, 1922, was referred, have considered the Bill and have now the honour to submit this report, with the Bill as amended by us, to the Legislature.

Clause 7—The loss by the assessment on clause was intended postponed the operation of section 4 of the amendments made by the Bill which effect a payment. The effect is to put all assessment on an equal footing. If any assessment were given in those amendments, assessment which were of assessment were unimpaired would get the benefit of the amendments while those whose assessments were suspended would be taken out.

Clause 10—The words inserted by us are necessary in view of the provisions already contained in subsection (2) of clause 24 of section 4A of the Act.

Clause 18—The new subsection, which we now propose should be added to section 17 provides that from the liability which would be incurred by income arising in the Indian States and was taken into account for the purposes in the year of assessment, it shall not be taken into account for the purposes in the year of assessment until the Indian States. The effect of the new subsection is to ensure that it shall not be taken into account for the purposes in the year of assessment so long as it does not exceed the amount of the Indian States income of that year. If it does exceed the Indian States income in that year, the rate of tax will be the rate applicable to the amount of the income which exceeds the Indian States income at the rate of the Indian States income of that year. This provision is necessary in order to safeguard the rate of tax when the Indian States income of the income is small in proportion to the amount payable from outside.

Some members enquired whether if Indian States adopted provisions similar to those now made by clause 8 and 10 and included income arising in Indian States in the total income for State assessment purposes, there was a likelihood that some financial institutions would meet on decreasing independently the amount of the income arising in Indian States and will be the production of income of income. The Finance Member explained the position that the States would ultimately pay the Indian States income, and the amount of income arising in Indian States.

To make it an enquiry about the operation of the amendments by clause 17 of the Bill the Finance Member stated that there was no likelihood of any change in the present position of Indian States unless India was to change in the present position in providing such questions.

Clause 21—The change here made has the effect of extending the time for appeal under sub-section 12 of section 36 as well as under section 36.

2. The Bill was published in the Gazette of India, dated the 14th October 1941.

3. We think that the Bill has not been as placed as it requires explanation, and we recommend that it be passed in the manner proposed.

MINUTE OF MEETING.

Clause 30 of the Bill.—Although by the addition of new subclauses (1) until clause 15 (1) an amendment is made in the Union as originally framed, yet one of clauses 15(1), if the second clause in the case of the person from an Indian State is given up, he is proposed to be given up by the Bill, then there must be some other person should be given up for the purpose in the year of annual. It is clear, however, that when work income is received in, or brought into, British India, it will be subjected to British Indian Tax.

Clause 21 of the Bill.—The clause, as given in draft, which was submitted that clause in fact was not a retrospective effect.

Clause 25 of the Bill.—We are strongly opposed to the proposed amendment made by the clause. The Collector has already got enough powers, and such additional powers might be conferred on the Collector are likely to be opposed to the provision of the income. Cases are not uncommon when the Collector has sold for recovery of land revenue, valuable properties for a long without study and proper notice being given to the defaulter party. If Government intend that such cases should be reviewed by the Collector, we suggest that the order for recovery should be directed on to a deputy or a Civil Court, and such a device should be made possible by the Collector in accordance with the rules and practice of the Civil Court.

a retrospective effect. We think that, if Government now see the utility and force of our arguments and legislate to put things into effect, there is no reason why they should not give such legislation retrospective effect.

Clause 5 of the Bill would amend the new section 101 as provided by the Indian Commission, but it is shown that in English law should be added to sub-section (1) in the following effect:—

"Explanation.—The provisions of sub-section (1) shall not apply in any transaction which could have been reasonably and lawfully effected by a person if this Act had not been in force."

The Parliament is based on the principle that no measure should be passed which affects any transaction, agreement or expenditure which is not being effected in the new scheme, and the Income Tax Act will not be in force. In other words, Government must not prevent an agreement from being done which it could have done, and there has to be understood an implication to release the profits with the object of ending the tax.

Sub-section (1) of the proposed section 101 provides for an appeal to the Revenue Tribunal. We want a further appeal to the High Court.

Clause 7 of the Bill.—The Bill seeks to add a new rule after Rule 10 in Schedule I, to be called Rule 10. This rule gives the collection by the power to charged expenses in cases of what would be considered an unwarmed regard to the requirements of the Income Tax Act. It also deals with Directors' fees and, again, it with payments for services rendered. It provides for an amendment, so, in our opinion, Government have already all single persons. Certain provisions of the Income Tax Act have been made applicable to the Income Tax Act. We feel that (1) is covered by section 10 (1) of the Income Tax Act, while (2) is covered by section 10 (2) of the same Act and (3) is covered by Rule 1 in Schedule I of the Income Tax Act of 1922. We are aware of the fact that the new Rule 10 has been passed from a corresponding provision of the English statute, but there is no provision in the Income Tax Act of England corresponding to section 10 (2) of the Indian Income Tax Act.

NOTIFICATION.

The following Statutes of the Provinces which have moved His Excellency the Governor to enact the Madras Medical Registration (Amendment) Act, 1944, in exercise of the powers of the Provincial Legislature assumed by him under the Proclamation issued under section 63 of the Government of India Act, 1935, is published for general information:—

STATUTES.

The qualifications for admission in the Madras Medical Register are specified in the Schedule to the Madras Medical Registration Act, 1914 (Madras Act IV of 1914). Many Masonic doctors who are engaged in Mission hospitals and other like institutions and are rendering valuable medical aid to the people of this Province do not possess these qualifications. It is not ordinarily possible for these doctors to

obtain these qualifications. The Madras Medical Council considers that these doctors should be registered under the proviso to section 12 of the Act but that such registration should be in force only so long as the doctors are actually engaged in work in Madras hospitals or institutions. As the proviso referred to above does not authorize the imposition of this restriction, it is considered necessary to amend it for taking the requisite power. A Bill for this purpose was published for criticism, and after considering the objections and suggestions which were received, His Excellency the Governor has assented to the Madras Medical Registration (Amendment) Act, 1941.

(By order of His Excellency the Governor) .

P. APPU NAIR,
Secretary to Government.

NOTIFICATION.

The following Statement of the reasons which have moved His Excellency the Governor to issue the Madras City Police (Second Amendment) Act, 1941, in exercise of the powers of the Provincial Legislature passed by him under the Proclamations issued under section 92 of the Government of India Act, 1935, is published for general information:—

STATEMENT.

The provisions of the Madras City Police Act, 1938, have been found in practice to be insufficiently effective to check betting shop activities in the City of Madras. A Bill to amend that Act for the effective control of betting shops was published and objections and suggestions were invited. After considering the objections and suggestions received in respect of the Bill, His Excellency the Governor has enacted the Madras City Police (Second Amendment) Act, 1941. The reasons for enacting the measure are set out below.

Section 2 amends the definitions of the expressions "Gaming" and "Instruments of gaming" on the lines of the Bombay Prevention of Gaming Act, 1937. The definition of "Gaming" as amended includes the selection and advising of bets, the receipt and distribution of money and prizes and also any act intended to aid or facilitate collection, sorting of bets, etc. The definition of "Instruments of gaming" as amended includes articles intended to be used for gaming and also the proceeds of any gaming and the money intended to be distributed in respect of gaming.

Section 3 amends section 23 of the City Police Act by substituting sub-sections (3), (4) and (4) for the existing sub-sections (2) and (3).

New sub-section (3) penalises the owner or occupier of a house, room or place who permits it to be used for purposes of gaming and also any person who has the use or management of or in any manner assists in the conduct of betting shops. Provision has also been made on the lines of the Bombay Prevention of Gaming Act for the imposition of a minimum punishment unless the court for special reasons to be recorded thinks fit to impose a lesser penalty.

New sub-section (4) provides for the punishment of any person found gaming on a premises at a betting shop or present there for the purpose of gaming.

New sub-section (4) provides a penalty for giving on a house-top in a public street, thoroughfare or other public place.

As aids on hotel ships can be obtained successfully only on secret information derived from informers, it is necessary to encourage them by the grant of rewards. The amendment to section 51 of the City Police Act made by section 4 provides for payment of rewards in cases falling under new section 37 (2), (3) and (4).
